

Text Sia SMS paper consent

Owner-only US pilot. No public enrollment. Toll-free verification and technical qualification are incomplete. Do not text the pilot number yet. Signing does not activate messaging.

Program number: +1 877-519-5813 (not active for pilot messaging).
Support and withdrawal before activation: inquire@sitechnologiesllc.com.

Full name _____

Your US mobile number _____

- ☐ **Optional SMS consent - check only if you agree.**
I choose to receive recurring, non-marketing Text Sia SMS from SI Technologies, LLC at the US mobile number I provide, after SI confirms owner-pilot activation. Messages cover AI conversational replies to my questions, reminders I specifically request, and essential pilot notices. Message frequency varies. Message and data rates may apply. Reply STOP to opt out or HELP for help once messaging is active. Consent is optional and is not a condition of any purchase. This consent does not authorize marketing, third-party messages, phone calls, or access to my private accounts.
- ☐ **Separate terms acknowledgment.** I have read the Text Sia SMS Terms of Service and Privacy Policy linked below. I am the subscriber or authorized user of the mobile number above.

Terms of Service: <https://sitechnologiesllc.com/text-sia-sms-terms>
Privacy Policy: <https://sitechnologiesllc.com/text-sia-sms-privacy>

Signature (sign personally) _____

Date signed _____

Return the signed form. Print, complete, sign, and date this form. Email a scan or clear photograph to inquire@sitechnologiesllc.com with subject "Text Sia SMS signed consent". Do not send credentials or unrelated personal information. Keep a copy.

Receipt and activation are separate. SI accepts SMS consent only when the optional SMS box is affirmatively checked, name/mobile/date/signature are complete, and the mobile matches the known pilot owner. A signed form with that box blank is not consent. Registration and operational checks are separate. An unsigned form, download, or unsent email is not consent evidence. No purchase is required.
